Research Profile

Researcher at the intersection of accounting, artificial intelligence, data analytics, and emerging technologies, with a strong background in auditing and financial reporting. My research interests include AI-assisted auditing, accounting information systems, anomaly detection, human–AI interaction, and quantitative finance, with an emerging interest in applications of quantum computing in accounting and finance.

CURRENT RESEARCH PROJECT

Title: Algorithm Aversion to AI-Generated Anomaly Alerts and Managers' Selective Disclosure Bias: The Mediating Role of Trust in AI Systems

Description:

This research examines algorithm aversion toward AI-generated anomaly alerts in ERP systems and its impact on managers' selective disclosure bias in financial reporting. It investigates how psychological resistance to AI influences disclosure decisions and explores the mediating role of trust in AI systems. The study aims to better understand human–AI interaction in financial decision-making and improve the use of AI-based decision support systems in organizations.

Education

M.S University of Algiers 3 “Ibrahim Sultan Cheibout”

Master in Auditing and Accounting (2020-2022)

Master's Thesis: Intellectual Capital Accounting

Additional Thesis/Research Work: HR Audit - Algeria Telecom Satellite

Advisor: Mohamed Mechid

Bachelor University of Algiers 3 “Ibrahim Sultan Cheibout”

Degree in Auditing and Accounting (2017-2020)

Thesis on cash-flow Audit -SAIDAL Group

Advisor: Mohamed Mechid

Professional experience

Sarl Abri Plastique – Accountant (January 2026 – July 2026)

- ✓ Prepare annual financial statements (balance sheet, income statement) and complete year-end closing procedures.
- ✓ Reconcile bank discrepancies and process tax declarations (G50).
- ✓ Manage full payroll cycle: salary calculations, tax/social withholdings, and payslip preparation.
- ✓ Corrected accounting errors from the 2025 fiscal year, ensuring compliance and data integrity.
- ✓ Filed G50 tax declarations for September, October, November, and December 2025.
- ✓ Processed and secured a withholding tax exceeding 11 million DZD for the company.

Research laboratory DZ – Founder and Executive Director (May 2025-Present)

- ✓ Founded and led DZRL, an independent research and development project covering 18 scientific fields and more than 173 specialties.
- ✓ Lead the development and supervision of research and applied projects across different scientific fields.

- ✓ Provide scientific and methodological guidance in research design, scientific analysis, and interdisciplinary project development.
- ✓ Train and guide researchers and project participants in scientific research methodology, critical analysis, and project development.
- ✓ Foster interdisciplinary collaboration by identifying connections between different fields and developing integrated approaches to research and project challenges.

Sarl Top Seventy – Accountant (Mar 2024 – June 2024)

- ✓ Supervised all accounting activities and cash management.
- ✓ Conducted financial audits of branches following GAAP and prepared the internal audit report.

Sarl WHP Algeria (WHITE HORSE PAPER) – Accountant (Nov 2023 – Feb 2024)

- ✓ Maintained accurate accounting records (journals, AP/AR).
- ✓ Prepared individual and corporate tax returns.
- ✓ Managed inventory valued over 10M DZD with weekly error analysis

Albayrak construction: Sarl Abraj Injaz – Project Accountant (sept 2022 – Jan2023)

- ✓ Monitored project finances from start to completion.
- ✓ Prepared monthly financial projections, billing statements, and earnings reports.
- ✓ Ensured payroll accuracy by collecting and updating employee data.

Algeria Telecom Satellite - Internship (4 months during 2021-2022)

- **Participated in the HR Cell Audit**
 - ✓ Human resource management department
 - ✓ Income management
 - ✓ Skills and Training Management
- **Participated in the management control cell audit**
 - ✓ Check and review the control documents of the Directorate
 - ✓ Audit and control the budgets of the directorates of the company
- **Participation in the audit of logistics management**
 - ✓ Management document audit
 - ✓ Cost audit

Saidal - Internship (4 months During 2020)

- ✓ Working at the expense of results
- ✓ Treasury audit

Research and Technical Projects

Project Lead and Member - Human Resources Information System Project, DZRL June 2026-Indepe

- ✓ Co-lead an ongoing HR Information System project within DZRL.
- ✓ Prepared the project requirements specification and contributed to defining the system's added value and innovative features.
- ✓ Led a working session on the structure, functions, and operational processes of corporate Human Resources departments.
- ✓ Explore the integration of AI and behavioral design into the system, including the use of color-based visual cues to investigate their potential influence on HR decision-making and discriminatory candidate rejection.

Intellectual Capital Accounting Information System- System Structuring Framework June 2022

- ✓ Designed a conceptual information-system architecture for intellectual capital accounting, including the identification of system components, information flows, data requirements, and functional relationships.
-

Academic and Professional Service

Academic Research Support - Ahmed AL Tanani | Palestine

June 2026

- ✓ Provided informal scientific and methodological support to a medical student during the preparation of his academic thesis.
- ✓ Reviewed the thesis draft prior to submission to his academic supervisor and provided feedback on its content, structure, clarity, and areas requiring revision.

Project Evaluation Committee Member, Sidi Bel Abbès, Algeria [Link](#)

July 2026

- ✓ Assessed entrepreneurial and innovation projects using criteria including originality, feasibility, potential impact, and presentation quality.
- ✓ Delivered evidence-based and constructive feedback to support the development and refinement of project proposals.
- ✓ Participated in the evaluation and selection of high-potential projects as a committee member.
