PROFESSIONAL SUMMARY

5th year State Engineering student in Electronic Systems Design at the University of Blida 1 – Saad Dahlab. Passionate about analog circuit design and embedded systems, with hands-on experience in schematic simulation using Xschem and basic Python scripting for data processing. Currently working on my final year project on the digital part of an RFID system, and eager to contribute to academic and professional forums in electronics and embedded systems.

TECHNICAL SKILLS

Circuit Design	Analog/schematic circuit design & simulation (Xschem, SPICE)
Programming	C / C++, Python (basic — data processing & automation) , VHDL, Verilog
Systems	Microcontrollers & digital logic design
Other	Technical documentation & scientific presentation, Islamic ornamentation & artistic design

EXPERIENCE

Internship – Electronic / Embedded Systems · CDTA 2026

Centre de Développement des Technologies Avancées, Baba Hassan, Algiers

- Worked within a research environment on electronic/embedded systems
- Exposed to prototyping and testing of digital and analog circuits

Internship – Industrial Electrical Systems · Sonelgaz 2025

Blida, Algeria

- Gained practical exposure to industrial electrical distribution and power systems
- Assisted technical teams with monitoring and maintenance procedures

PROJECTS

RFID System Design – Digital Part (Final Year Project, in progress) 2025 – 2026

University of Blida 1 – Saad Dahlab

- Designing and simulating the digital architecture of an RFID system
- Using Xschem for schematic capture and SPICE for circuit simulation
- Applying Python scripts to process and analyze simulation data

EDUCATION

State Engineer Diploma in Electronic Systems Design 2022 – 2027 (expected)

University of Blida 1 – Saad Dahlab, Faculty of Technology

Preparatory Classes in Science and Technology 2022 – 2024

University of Blida 1 – Saad Dahlab

AWARDS & ACHIEVEMENTS

2nd Place, National University Competition in Islamic Ornamentation

Awarded 2nd place in two consecutive editions of the competition

LANGUAGES

Arabic Native / Fluent

French Advanced

English Intermediate
