Experience

YOTTA Sarl

Software Engineer - AI and Image Processing

Hybrid

Feb. 2024 – Oct. 2024

- Developed a forensic entomology desktop application in Python for real-time object and motion detection, utilizing TensorFlow and PyTorch for model training.
- Designed and implemented a user-friendly GUI using Tkinter and CustomTkinter, with a MongoDB Compass backend.
- Integrated features for capturing and storing images and relevant data, including precise timestamps, in the database.
- Implemented a login system for case-specific user access, daily email notifications, and Windows alerts for unacknowledged detections.
- Authored and maintained comprehensive documentation detailing application functionality and user guidance.

Re:Coded

Front-End web Developer

Remote

Jun. 2023 – Dec. 2023

- Collaborative Project Experience: Developed several responsive web applications including **Madaura**, **DzExpress**, **Cinepholie**, and **WonderTellers** as part of a team.
- Technical Skill Acquisition: Gained proficiency in JavaScript, React, Next.js, Tailwind CSS, and Firebase through hands-on project work.
- Soft Skill Development: Honed soft skills such as communication, collaboration, and problem-solving during the bootcamp.

YOTTA Sarl

ODOO Functional Support

Bab Ezzouar, Algiers

Jan. 2021 – Dec. 2022

- Full support for Odoo integration with the assistance of the integrator.
- Training a cross-functional team of 3-5 resources on Odoo functionalities.
- Ensuring a smooth transition to the new system and supporting users in the transitional phase.

Administrative Assistant

Jan. 2018 – Dec. 2021

- Crafts technical and commercial documents.
- Manages files for quick access.
- Facilitates seamless collaboration and enhances efficiency.
- Manages communication with providers and customers.

Bright Network

Technology Intern

Remote

Jun. 2022- Jul. 2022

- Developed an optimal pathfinding algorithm (A algorithm)* for self-driving delivery vehicles in the AWS Amazon Coding Challenge.
- Utilized Python programming language for efficient implementation.
- Leveraged the NumPy library for numerical computations and data manipulation.

Education

Ziane Achour University

Bachelor of Science in Computer Science.

Djelfa, Algeria

Sep. 2012 - Jun. 2015

Relevant Coursework:

- | | | |
|------------------------------------|---------------------|---------------------------|
| • Algorithm and Data Structure | • Operating system | • Analysis |
| • Software Engineering | • Compilation | • Algebra |
| • System Information and Databases | • Computer Networks | • Numerical Analysis |
| • Cryptography | • Image processing | • Statistical Probability |

- Graph Theory
- Descriptive statistics

Extracurricular Activities

StarTech Club

Dar El-Beida, Algiers

Coordinator member

- StarTech is a newly created club aiming to introduce **60 children (ages 8-15)** to coding and learning cutting-edge technologies.
- Oversaw the technical team's coordination, ensuring smooth collaboration and knowledge sharing.
- Organized regular meetings, handled all logistical needs, and addressed any organizational concerns.

MNClub

Dar El-Beida, Algiers

Co-Leader membership

- Empowered women in business and leadership: Led various groups (5-30 members) with a focus on professional development.
- Communication Leader: Facilitated seamless communication within and between groups, ensuring everyone was informed and engaged.
- Logistical Coordinator: Organized meetings, events, and resources, ensuring smooth operations and a positive experience for all members.
- Guest Coordinator: Identified and invited prominent speakers and mentors to improve member learning and networking opportunities.

French teacher

Dar El-Beida, Algiers

- Extensive experience: Taught French to over 60 individuals across diverse age groups (4-50+ years old).
- Variety of settings: Instruction was delivered through 3 different associations and clubs, adapting to different environments and needs.

Skills & Languages

Technical:

- | | | |
|--------------|----------------|------------|
| • Python | • Next.js | • MongoDB |
| • JavaScript | • Tailwind CSS | • Firebase |
| • React.js | • HTML/CSS | • Supabase |

Languages: Arabic - English - French
