ABOUT ME

- Computer Engineer and experienced educator with a strong background in secondary education, vocational training, and university-level teaching. Skilled in teaching computer fundamentals, operating systems, Microsoft Office applications, programming, databases, and applied statistics. Proven ability to design modern curricula, foster creativity, and enhance students' practical skills in diverse learning environments.

Assistant Professor of Computer Science – English College

2011 – 2013

- Taught programming, database systems, and software engineering.
- Supervised graduation projects and guided students in problem-solving.
- Published research papers and participated in academic conferences.

Assistant Professor of Statistics – University of Biskra

2013 – 2015

- Taught theoretical and applied statistics courses.
- Supervised research projects and conducted data analysis using statistical software

Experience

Computer Science Instructor

2017 – 2020

- Taught computer fundamentals, operating systems, and Microsoft Office.
- Conducted lab sessions to strengthen technical skills.
- Developed interactive teaching activities linking theory to practice

Vocational Training and Apprenticeship Instructor

2021– 2022

- Trained learners in technical computer skills.
- Designed and delivered practical workshops and projects.
- Evaluated trainee performance and provided constructive feedback

Secondary School Teacher

2023– 2024

- Delivered subject content according to national curriculum standards.
 - Developed lesson plans integrating practical applications.
 - Monitored and assessed student progress, providing individualized support
-

Education

Engineer in Industrial Computer Science

2009 – 2010

in Biskra City

Master's Degree in Computer Science – Artificial Intelligence

2019 – 2020

in Biskra City

skills

Teaching skills:

- Designing and delivering academic and training curricula
 - Simplifying technical concepts for diverse groups of learners
 - Managing classrooms and educational laboratories
 - Preparing practical activities and hands-on projects
-

Technical skills:

- Programming and databases
 - Operating systems (Windows, Linux)
 - Microsoft Office applications
 - Data analysis using statistical software (SPSS, R)
 - Hardware and network management and maintenance
-

languages

- Arabic: Native language
- French: Excellent (reading, writing, speaking)
- English: Excellent (reading, writing, speaking).
