

OUSSAMA AOUIOUECHE

MECHANICAL ENERGY ENGINEER

📍 El-Oued, Algeria 📞 +213 673 922 794 ✉️ aouiouech.oussama@email.com

PROFESSIONAL SUMMARY

Motivated Mechanical Energy Engineering graduate with a strong academic background in thermodynamics, fluid mechanics, heat transfer, and energy conversion systems. Highly passionate about mechanical systems design, automotive mechanics, and thermal system analysis. Proven track record of applying engineering fundamentals to academic projects using SolidWorks and MATLAB. Highly adaptable, detail-oriented team player with excellent communication skills and a strong commitment to professional growth in mechanical engineering.

EDUCATION

Bachelor's Degree (Licence) in Mechanical Engineering

June 2026

Specialty: Energetics (Énergétique) — University of El Oued, Algeria

- **Core Coursework:** Thermodynamics, Fluid Mechanics, Heat Transfer, Turbomachinery, Internal Combustion Engines, Energy Systems, and Applied Mathematics.
- **Academic Standing:** Successfully completed hands-on module projects demonstrating rigorous theoretical understanding and engineering troubleshooting.

ACADEMIC & TECHNICAL PROJECTS

Thermal & Energy Systems Design Projects

University of El Oued

- Executed practical engineering projects across core modules, applying principles of heat exchangers, fluid dynamics, and thermodynamic cycles.
- Utilized **MATLAB** for numerical modeling, mathematical computation, and data analysis of thermal system performance.
- Designed 3D mechanical components and assemblies using **SolidWorks**, ensuring structural feasibility and accuracy.

Automotive & Mechanical Diagnostics Exploration

Personal / Applied

- Investigated internal combustion engine dynamics, diagnostic tools, and automotive electronic feature customization.
- Handled practical troubleshooting and repairs on mechanical and electrical vehicle components (e.g., remote locking mechanisms and diagnostic scanning).

SKILLS & COMPETENCIES

Engineering Software: SolidWorks, MATLAB

Engineering Domains: Energetics, Fluid Mechanics, Heat Transfer, Thermodynamics, IC Engines, Turbomachinery

Technical Skills: Mechanical Diagnostics, Maintenance, Troubleshooting, 3D CAD Modeling

Soft Skills: Teamwork & Collaboration, Rapid Learning, Problem-Solving, High Work Ethic

LANGUAGES

- **Arabic:** Native / Full Professional Proficiency
- **English:** Professional Working Proficiency

- **French:** Professional Working Proficiency
