---

## Summary

*I am an Automation Engineer (PLC engineer), my journey began at ESGEE (Higher School of Electrical and Energy Engineering) in Oran, followed by ESSA (Higher School of Applied Sciences) in Tlemcen, where I specialized in Automation for three years. Through internships at SONATRACH, I'm passionate enough that I believe I can level up the company I work in.*

## Experiences

---

03/2023–04/2023    **Instrumentation and Control Systems Engineer (SONATRACH DML).**

- **PLC Programming and Understanding of Automated Systems:**
  - ✓ Proficiency in Ladder and structured programming languages for industrial programmable logic controllers (PLC) to create simple automated sequences.
  - ✓ In-depth understanding of automated systems, encompassing sensors, actuators, controllers, and human-machine interfaces (HMI).

12/2022 -01/2023    **Instrumentation and Control Systems Engineer (SONATRACH DML).**

- **Designing HMI and Electrical Schematic Interpretation:**
  - ✓ HMI Design and Utilization: Introduction to HMIs for controlling elementary automated systems.
  - ✓ Interpretation of Electrical Diagrams: Proficiency in decoding simple electrical diagrams for wiring and component connection.

03/2022 -04/2022    **Instrumentation and Control Systems Engineer (SONATRACH DML).**

- **Industrial Safety Principles in Automated Environments:**
  - ✓ Preventive and corrective maintenance of main rotating machinery in TRC (Gas Turbines, Electric Motors, Pumps, Compressors, Alternators, etc.) and their accessories.
  - ✓ Industrial Safety: Acquiring safety principles within automated environments.

12/2021 -01/2022    **Engineer in control Automation systems (SONELGAZ Distribution Laghouat)**

- **Electrical Engineering and Energy Systems Exploration:**
  - ✓ I had the opportunity to explore the dynamic world of electrical engineering and energy management.
  - ✓ I gained knowledge in SCADA technology and automation, central elements for the efficiency and reliability of energy infrastructures.

09/2023 -06/2024    **Teaching Private Courses**

- ✓ Teaching private courses for university students majoring in science and technology (chemistry, physics), as well as primary school students.

## Educations

---

|             |                                                                                                                                                         |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2020 – 2023 | <b>Diplomas (State Engineer + Master's Degree) in Automation</b><br><i>ESSAT (Higher School of Applied Sciences in Tlemcen)</i>                         |
| 2018 – 2020 | <b>Certificate of Success in the National Higher Schools Entrance Exam</b><br><i>ESGEE (Higher School of Electrical and Energy Engineering in Oran)</i> |
| 2018        | <b>Algerian Baccalaureate (Technical Mathematics At electrical engineering )</b><br><i>Highschool Omar Dehina, Hay 834</i>                              |

## Skills

---

- ✓ Programming: Advanced expertise in Java, C,Python, C++, Ladder, and Grafcet, HMI.

✓ Advanced use of tools such as MATLAB, Simulink,Schneider(Exostruxure), and SolidWorks.

✓ Video Editing using Davinchi Resolve.

✓ Teaching.

✓ Sales
- ✓ Teamwork

✓ Creativity

✓ Decision-making

✓ Leadership

✓ Adaptability

✓ Problem-solving

✓ Time management

## Languages

---

Arabic

English

French

Korean

## Intrests

---

- Challenge myself through the hard work.
- Travelling.
- Video Editing.
- Experience new challenges.
