

Fethallah Abdelkader GHELLAIMI

AI Engineer | Cybersecurity | Embedded Systems

✉ fethallahghellaimi@gmail.com | [in](#): Fethallah Abdelkader GHELLAIMI | 📞 +213 656 485 397 | 📍 Tlemcen

PROFESSIONAL SUMMARY

Fourth-year Engineering student in Computer Science (AI specialization) at Abou Bekr Belkaid University, Tlemcen. Proven hands-on expertise in defensive cybersecurity (Top 2% globally on TryHackMe), web penetration testing (OWASP Top 10), and AI-driven solutions. Experienced in Python, Java, C/C++, and embedded systems. Seeking opportunities to leverage skills at the intersection of AI and cybersecurity.

PROFESSIONAL EXPERIENCE

Web & Application Pentester

Mar. 2025

SAFI Digital — Remote

- Conducted security assessments on web applications following OWASP Top 10 methodology
- Identified and documented critical vulnerabilities: SQL injection, XSS, and authentication bypass
- Delivered detailed remediation reports to development and product teams

Cybersecurity Trainee — CTF Player

Jul. 2024 – Present

TryHackMe — Self-directed · Top 2% worldwide

- Completed 100+ hands-on challenges covering Linux exploitation, networking, and privilege escalation
- Developed practical skills in vulnerability assessment and ethical hacking methodologies

Intern — Telecommunications & Networking

Dec. 2024 – Jan. 2025

Algérie Telecom — Tlemcen, Algeria

- Gained exposure to telecommunications infrastructure and network management systems
- Assisted in technical operations and system monitoring procedures

Team Member — Ethical Hacking

Dec. 2024 – Sep. 2025

Shellmates Club — Tlemcen, Algeria · Remote

- Collaborated on CTF challenges, penetration testing exercises, and security awareness campaigns

PROJECTS

Eye Disease Detection from OCT Images

Feb. 2026

Deep Learning · Team Project — Abou Bekr Belkaid University

- Developed a CNN-based model to classify retinal diseases from Optical Coherence Tomography images
- Performed data preprocessing, augmentation, and cross-validation on medical image datasets

AI-Based Intelligent Glove for Patient Communication

Jan. – May 2024

Hardware + AI · University Project — Abou Bekr Belkaid University

- Designed an Arduino glove using flex sensors to capture and recognize real-time hand gestures
- Integrated gesture recognition pipeline with a REST API for data transmission and display

Digital Signature System

Jan. 2025

Security Project — Remote · Algiers

- Developed a remote digital signature system using OpenSSL and RSA for secure authentication

EDUCATION

Engineering Degree in Computer Science — AI Specialization 2022 – 2027 (expected)

Abou Bekr Belkaid University — Tlemcen, Algeria

- Relevant coursework: Machine Learning, Deep Learning, Cybersecurity, Networks, Operating Systems, Web Development

Scientific Baccalaureate 2022

Ahmed Bey High School — Tlemcen, Algeria

SKILLS

Programming	Python, Java, C/C++, JavaScript, SQL, Assembly (x86/x32), Arduino
AI & ML	Machine Learning, Deep Learning (TensorFlow, Scikit-learn), CNNs, Data Preprocessing
Cybersecurity	Penetration Testing, Web Security (OWASP Top 10), Cryptography (RSA, OpenSSL)
Tools	Nmap, Wireshark, Metasploit, Burp Suite, Kaggle, Google Colab, Git, n8n
Systems	Linux, Windows, Embedded Systems (Arduino, ESP32), Networking

LANGUAGES

Arabic : Native French : Intermediate English : Intermediate

VOLUNTEERING & LEADERSHIP

- President & Member — Cywork Club, Tlemcen (Sep. 2023 – Feb. 2026): led communication and external partnerships
- Event Ambassador — ENIM Robots 10 / Club Robotique IngEnim, Tunisia (Feb. – May 2025): coordinated technical promotion
