PROFESSIONAL SUMMARY

Cybersecurity Engineer and Full Stack Developer delivering production web apps, freelance e-commerce platforms, and AI-driven security systems, across the full lifecycle from architecture to deployment.

WORK EXPERIENCE

Ericsson Algeria

Dar El Beida, Algiers

Cybersecurity Engineer Intern

Mar 2026 – May 2026

- Designed and deployed an SDN testbed using Mininet and RYU controller (OpenFlow 1.3) to simulate real network environments for security research
- Built an AI-powered anomaly-based IDS using an Autoencoder model, achieving best attack categorization performance with Random Forest classifier

Excellesia GmbH

Zug, Switzerland (Remote)

Cybersecurity & Development Intern

Feb 2025 – Jul 2025

- Evaluated application and infrastructure security using Kali Linux, Burp Suite, Wazuh, Snort, Nmap and Metasploit to identify and document vulnerabilities and misconfigurations
- Contributed to a multi-platform ERP system built with React, Express.js, and DHTMLX, applying secure coding practices and supporting mobile extension with Expo.js

Algerian Tech Makers

Algiers, Algeria (Remote)

Project Manager & Full Stack Developer

Feb 2025 – Present

- Lead development of multiple open source projects using Next.js, PostgreSQL, and Express.js, overseeing full feature delivery from planning to deployment
- Coordinate team workflows via GitHub Projects, establishing code review processes, version control standards, and QA tests using Playwright, improving delivery consistency across contributors

PROJECT EXPERIENCE

Badir - Initiatives Platform

Full Stack Developer

Aug 2025 – Present

Community platform for charity organizations to host and discover local initiatives with geolocation-based discovery.

Built with Next.js, Prisma, PostgreSQL, Redis, PWA. Reached 200+ users.

Arkeo D'or - Desktop CRM

Full Stack Freelancer

Jun 2024 – Jul 2024

Designed and delivered a desktop CRM application using Electron, Vite, and React. Migrated from an initial JavaFX/MongoDB stack, improving maintainability through modular architecture and Git-based version control.

Project Management Platform

Full Stack Developer

Sep 2025

Lightweight project management tool for dev team lifecycle, scheduling, and task tracking. Built with Laravel and React.

EDUCATION

University of Science and Technology Houari Boumediene (USTHB)

Bab Ezzouar, Algiers

Information Security Engineer

Jun 2027

- Active in Shellmates, CSE, School of AI, participant in CTFs and hackathons

SKILLS

Security & Systems: Kali Linux | Burp Suite | Wazuh | Suricata | Snort | Nmap | IDS/IPS | CCNA | SC-200

DevOps & Tooling: Git | GitHub | Docker | Nginx | CI/CD | Linux | Structured Logging

Frontend: TypeScript | React | Next.js | Expo.js | Tailwind CSS | Zustand | TanStack Query | Redux | SCSS | Shadcn

Backend: Node.js | Express.js | Django | Laravel | RESTful APIs | Stripe | WebSockets

Databases: PostgreSQL | MongoDB | MySQL | Supabase | Redis | Prisma
