

MEZIANI REZKALLAH

ELECTRONICS ENGINEER | OPERATIONAL MANAGER | BUSINESS DEVELOPMENT

📞675613225 ✉busm004@gmail.com 📍Alger - Bordj El Bahri

PROFILE

Electronics Engineer specialized in Embedded Systems, combining technical expertise, operational management, and Business Development. Founder and Operational Manager of Techforger, designing electronic, digital, and educational (STEM) solutions while coordinating multidisciplinary teams.

PROFESSIONAL EXPERIENCE

Operationnel Manager — <i>Techforger</i>	2024 – Present
- Operational management and strategic development of the company; management of technical projects from design to implementation. - Coordination of technical teams, developers, and trainers; supervision of training programs in robotics and embedded systems. - Development of B2B relationships, commercial offers, and design of electronic, digital, and educational (STEM) solutions.	
Business Development Officer — <i>EURL IFLI</i>	2022 – Present
- Market studies and preparation of commercial/technical offers; submissions and tenders at the national level. - Analysis and planning of human and material resources; purchasing and supplies management for high-voltage projects. - Site visits and monitoring of project preparatory phases; management of customer relations and project follow-up.	
Administrative Agent — <i>Independent Services</i>	2021 – 2024
- Administrative support for companies' regulatory procedures; relations with CNRC, CNAS, CASNOS, and public administrations. - Preparation and monitoring of administrative/tax declarations and annual company obligations.	
Machine Operator — <i>Advertising Agency</i>	2021 – 2021
- Operated laser production machines; prepared production files and monitored manufacturing stages. - Performed quality control and diagnosed malfunctions with first-level maintenance interventions.	

FORMATION

Master's Degree – Embedded Systems — <i>USTHB</i>	2025
FYP: Home Automation System with Battery Energy Optimization — embedded design, energy optimization, hardware & software development.	
Bachelor's Degree – Electronics — <i>USTHB</i>	2023
FYP: Basic Home Automation System with Electronic Board Development.	
Baccalaureate – Technical Mathematics	2020

TECHNICAL SKILLS

Embedded Systems: Design & PCB layout, prototyping, sensors/actuators integration, IoT
Programming: C/C++, Python, Arduino, ESP32, STM32, UART/I2C/SPI
Design Tools: KiCad, Proteus, EasyEDA, STM32CubeIDE
Professional: Project management, B2B development, tenders & offers, team coordination, procurement

EVENT MANAGEMENT EXPERIENCE

Digital Creator Awards, THE Conférence, African Startup Conference (1re & 2e éditions), ARC – Algerian Robot Cup, Junction, C-Tech (2021 – 2024).

PERSONAL SKILLS & LANGUAGES

Skills: Leadership, analytical thinking, organization, adaptability, teamwork, sense of responsibility
Languages: Arabic (native) · French (fluent) · English (technical documentation)
